PROFESSIONAL SUMMARY

Performance-focused Full-Stack Frontend Developer & Creative UI/UX Designer with 4+ years of experience building high-density, low-latency web applications. Proven expertise in client-side loading optimization (Lighthouse 90+), dynamic component splitting, and modern web design using Next.js, React, Tailwind CSS, and Framer Motion.

KEY PROJECTS

PulseLab & Portfolio Platform — **Creator & Lead Developer** 2026

- Engineered a high-density, performance-first interactive sandbox and portfolio platform using Next.js and Tailwind CSS.
- Achieved **90+ Lighthouse performance scores** through `next/dynamic` code splitting and deferred canvas mounting via `IntersectionObserver`.
- Refactored full mobile layout, navigation drawers, and touch targets to ensure sub-second latency and zero layout shift.
- Configured dynamic OpenGraph meta-tag integrations for crisp automated social previews across platforms.

PROFESSIONAL EXPERIENCE

Freelance Web Developer & UI Designer 2023 – Present

Self-Employed

- Designed and deployed responsive web interfaces and marketing assets for diverse clients using React, Next.js, and Tailwind CSS.
- Executed accessibility and site-speed audits to ensure optimal mobile responsiveness and cross-browser reliability.

Lead Graphic Designer & UI Creator 2020 – 2023

Ashrolink Computer Institute • Abeokuta, Nigeria

- Spearheaded visual design projects from concept to final delivery across print and digital branding channels.
- Directed media initiatives, managed client requirements, and maintained 100% on-time delivery under tight schedules.
- Mentored junior designers on layout composition, typographic hierarchy, and visual design fundamentals.
